JHANSI LAKSHMI GONDI
Junior Web Developer
Hyderabad, Telangana | +91 9642882975 | g.jhansi1081@gmail.com | jhansi-lakshmi-gondi

PROFILE SUMMARY:

- **Junior Web Developer** with overall **1 year of hands-on experience** in designing and developing responsive web applications.
- Proficient in **HTML, CSS, and JavaScript**, with practical experience in using modern libraries and frameworks like **React.js** to create dynamic and interactive interfaces.
- Experienced in building **clean and maintainable code**, ensuring cross-browser compatibility and performance.
- Skilled in **version control tools** such as **Git and GitHub**, enabling smooth collaboration in team-based projects.
- Knowledgeable in **responsive web design** and **debugging techniques** to improve efficiency and accessibility.

WORK EXPERIENCE:

Digitali360 – Junior Web Developer – Hyderabad   **May 2025 - Present**
Project: Proppins – Real Estate Web Platform - https://proppins.com/

- Built a full-featured real estate platform supporting Buy and Rent modules with categorized property listings and filters.
- Designed responsive UI components using React, ensuring optimized performance across devices.
- Integrated Laravel backend for secure data handling and implemented real-time property updates.
- Enhanced usability with dynamic search, filtering, and structured navigation.

Environments: React.js, MySQL, HTML5, CSS3, JavaScript, REST APIs, GitHub, VS Code, Postman

Project: Alanati Pindivantalu – Traditional Sweets & Hot Foods Website - https://alanatipindivantalu.com/

- Developing a culturally themed desktop-focused website for a traditional food brand.
- Built clean, structured layouts with HTML and Tailwind CSS reflecting the cultural aesthetics.
- Added lightweight interactivity using Alpine.js for dynamic menus and product highlights.

Environments: HTML, Tailwind CSS, Alpine.js, Blade, VS Code

Project: Sansai – Business Website - https://sansai.com/

- Built a responsive and modern automobile business website using HTML, Tailwind CSS, and Alpine.js, delivering interactive and user-friendly UI layouts.
- Migrated completed pages to Laravel, converting them into reusable Blade templates following MVC architecture.

Environments: HTML, Tailwind CSS, Alpine.js, Laravel, Blade, PHP, MySQL, Cursor

Project: Madroidix Technologies – Company Website - https://madroidix.com/

- Contributed to the Madroidix Technologies website, representing the company's expertise in delivering high-quality custom software solutions across web, mobile, and backend domains.
- Designed and implemented responsive web pages using HTML, Tailwind CSS, and Alpine.js for effective presentation of services and technology offerings.

Environments: HTML, Tailwind CSS, Alpine.js, Laravel, Blade, Trae

Neosys Tech Solutions – Associate Software Trainee – Hyderabad   **June 2024 – Oct 2024**
Project: JhanTech Innovations – Company Website

- Developed a dynamic company website using React, HTML, CSS, and JavaScript, later rebranded as a personal project.

- Implemented component-based architecture with reusable UI elements and responsive layouts.
- Showcased company sections like services, team, and contact using smooth navigation and animations.

Environments: React.js, HTML, CSS, JavaScript, VS Code

Synergy Universal – Software Developer Intern – Hyderabad   **Feb 2024 – June 2024**
Project: SafeCart – E-Commerce Web Application (Replication Project)

- Developed a fully functional e-commerce replica platform with product listings, cart management, and authentication.
- Designed responsive UI using React, Bootstrap, HTML, and CSS; implemented backend with Node.js and MySQL.
- Built reusable components and REST APIs to ensure smooth communication between frontend and backend.

Environments: React.js, Node.js, Express.js, MySQL, Bootstrap, HTML5, CSS3, JavaScript, VS Code
